

Aswath AS

I build across AI, Web3, finance, and security.

Chennai, India · aswathas · aswathas13@gmail.com ·github.com/aswathas

EDUCATION

B.Tech — Computer Science and Engineering

SRM Institute of Science and Technology, Kattankulathur — 4th year

SELECTED WORK

axiom

Python

Evidence-grounded clinical intelligence layer for EMRs. Calibrated refusal when the record does not support the claim.

AI Brain

TypeScript

Local-first personal wiki that evolves with you. A library plus a CLI and an Electron desktop app for Claude Code, Hermes, and any LLM provider.

the-analyst

TypeScript

Semester exam intelligence — Data Science, Cloud Computing, Compiler Design and three more subjects decoded.

OLX India CLI

TypeScript

OLX India car search CLI and web app. Search, score, and track second-hand cars with AI.

ChainSentinel

Solidity

EVM blockchain forensics tool. Investigate on-chain exploits end to end.

ForensicToolW3

TypeScript

Enterprise-grade EVM forensics investigation dashboard. React 19 front end, Express API, and an Ollama copilot over simulated exploit evidence.

Love Lace

JavaScript

Blockchain cross-border payments and invoicing on Celo. React, Remix, Solidity, MetaMask, and LLM-assisted workflows.

BlockAuth

JavaScript

Secure blockchain-based authentication system.

agent-skills

JavaScript

Claude Code CLI skills for deep learning, exam prep, and knowledge work.

Healthcare Tracker

TypeScript

Next.js and Supabase health management app — conditions, medications, test results, appointments, and goals in one dashboard.

SKILLS

TypeScript · JavaScript · HTML · Solidity · Go · Python
